

**AAON Horizontal Configuration Rooftop Units are engineered to handle a variety of applications that were only possible before in a vertical arrangement!**

**Why are these the slickest horizontal rooftops units on the market?:**

**The same premier features that are standard in all AAON units! Air & Water Cooled Condensing, Heat Recovery, Fully Modulating Compressors & Condenser Fans, High Turndown Gas Heat, R-13 Panel Insulation, No through Metal Construction, 2500 Hour Salt Spray Paint, Color Coded Wires that Match the Wiring Diagram, All Components Labeled, Controls by Others, Direct Drive Fans, 100% OA Capability, Low Dewpoint Dehumidification...**

Final filtration with high efficiency filters are available.

### **Applications**

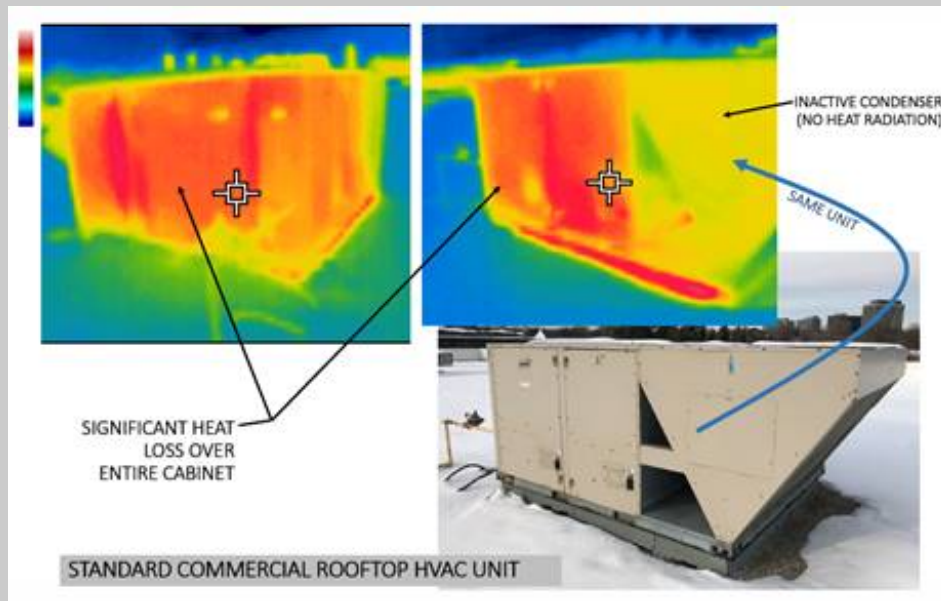

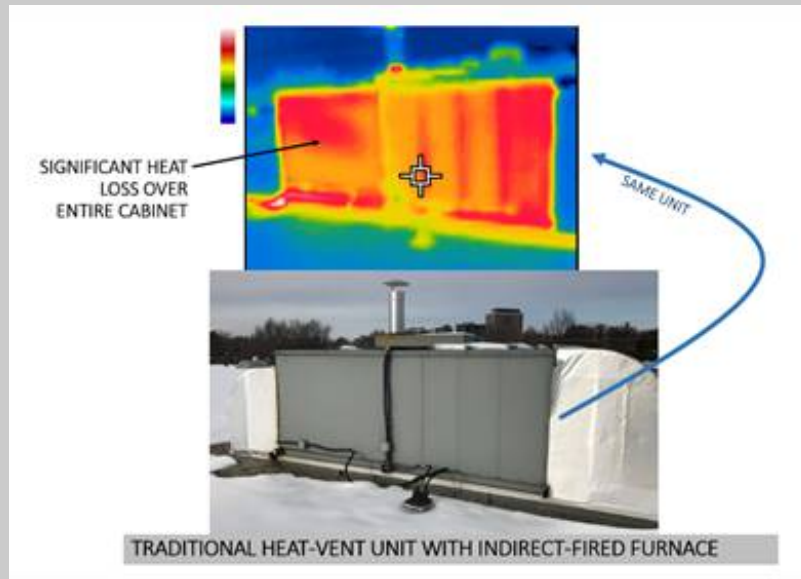

**Unique Rooftop Applications**  
**Sound Sensitive Applications**  
**Hotel Applications**  
**Code Compliance Applications**  
**HEPA Filtration**

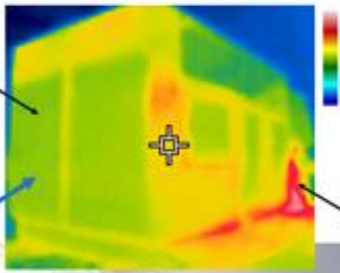

**Aaon rooftops units are designed to keep the heat where it should be - inside!**

Don't believe us? Check out some of the thermal images below of competitors vs. Aaon rooftop HVAC units and stop heating and cooling the great outdoors!

MINIMAL HEAT LOSS  
THROUGHOUT ENTIRE  
CABINET DUE TO 2 INCH  
DOUBLE WALL, FOAM  
INJECTED CONSTRUCTION –  
STANDARD ON ALL AAON  
ROOFTOP UNITS

HEAT SIGNATURE FROM  
EXHAUST AIR OUTLET.  
THIS IS NORMAL WHEN  
UNIT IS OPERATING.
