

## Can A Rooftop Be As Efficient As A Chilled Water System?

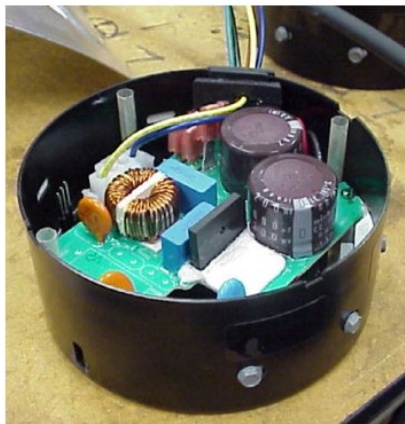

Aaon has perfected its units to now include ECM Motors and VFD's to provide efficient condenser fan speed control.

In addition, the units include a fully modulating compressor that regulates the refrigerant flow to provide increased control and decreased energy usage.

Together, they provide a system that is as efficient as chilled water systems at a lower cost.

**Aaon's Rooftop Systems = As Efficient as Chilled Water Systems!**
