

## Samsung DVM S and Mini DVM S Eco System Training

Understanding proper unit placement, installation, connection, component selection and system requirements is extremely helpful and recommended to installing contractors and engineers.

### Option A (Recommended): 2-Day Training

Carlisle, PA

This course will provide an installing contractor or engineer with all the necessary information to design, layout, install and start Samsung DVM S and Mini DVM S Eco Systems.

- Jacco will pay for the class for up to 3 employees from the same company.

*This does NOT include accommodations (travel/hotel).*

#### **Training includes:**

- Samsung service tool
- Training binder with all applicable training information

Classes are held once a month. To register, contact your sales representative or Brenda Homjak at [brendah@jacco.com](mailto:brendah@jacco.com)

### Option B: Online Technical Training

Required for those who cannot attend the 2-Day Training

This is a three-step online training course designed to train an individual who wants to purchase a Samsung DVM S System on how to install and start the system.

**Steps include:**

- **Step 1: Take online four-hour training course**
- **Step 2: Design phase**
  - This is an opportunity to meet with your sales representative and operations engineer onsite to review the design and layout of your system
- **Step 3: Final Installation Training**
  - This is an opportunity to meet with your sales representative and Jacco's Service Manager to review the unique features of your system and building and to ask/answer any specific remaining questions.

All steps are mandatory to complete in order to be in good standing for warranty purposes.

For more information on the training options, [click here](#).

Jacco will always be onsite to evaluate the piping and installation. These processes are established to insure proper installation and operation as well as lock in Samsung's 10-year warranty.
