

We are excited to share with you that 2018 is Jacco's 50th year in business. To celebrate this milestone, we will share a monthly feature that highlights an aspect of Jacco's past, present or future plans for our company's continued client satisfaction and growth.

This month, we want to tell you-our customers, clients and friends-about one of our most exciting and rewarding projects to date: supplying the home of the Cleveland Indians with 100% of its heating and cooling systems.

In 1994, the Cleveland Indians moved from the Municipal Stadium to the new Jacob's Field (now Progressive Field). With the new ballpark came a need for the necessary equipment to heat and cool the various restaurants, locker rooms and indoor workout areas.

This is where we stepped in. Jacco was able to provide the needed top-quality McQuay products to Jacob's Field at a cost-effective price. The installation was a great success.

In celebration of our 50th year in business, Jacco's employees and their families attended an Indians game on April 25. More than 350 attendees watched as the Cleveland Indians took on the Chicago Cubs. Dinner and seating was provided in the Terrace Club.

"This event was a great way to continue our tradition of taking pride in Cleveland sports and our customers," said Jim Cohen, founder of Jacco.

Once again, we'd like to thank all of our employees, customers and colleagues for making Jacco a leading representative in the HVAC industry for 50 great years. Cheers to many more and go Tribe!

Fun Facts about the Jacob's Field Project:

- 73 Air Handlers: 765,375 CFM; 5,722 KW; 1,448 TONS
- 181 Fan Coils: 151,615 CFM; 1,406 KW; 433 TONS
