

Welcome to **OPPORTUNITY**, a monthly newsletter provided by Jacco & Associates. Jacco's focus on engineering and design concepts will improve your HVAC system while significantly reducing design time, making you more productive for your clients.

September Feature:

Digital Precise Air Conditioning

Does your system meet ASHRAE 55 - 2004 for Thermal Comfort at all conditions?

Aaon's Digital Precise Air Control System (DPAC) will accurately control space temperature and relative humidity under all room load conditions and all ambient conditions. How do we accomplish this? By utilizing a return air bypass, modulating hot gas reheat coil, and a variable capacity scroll compressor we can maintain ideal comfort conditions and prevent mold growth under any load condition. At the same time the DPAC unit operates at the efficiency level of a chilled water system.

Request a Psychrometrics lunch and learn from your Jacco representative today!

September Question & Answer:

Question: How long has Copeland's variable capacity scroll compressor been in production?
a.) 2 years b.) 5 years c.) 7 years d.) 10 years

Prize: Jacco Fleece Pullover – perfect for Autumn days.

Respond to this email by the 30th with the correct answer and be entered into a raffle for this month's prize!
