Focused on The Engineered Environment

April 2008

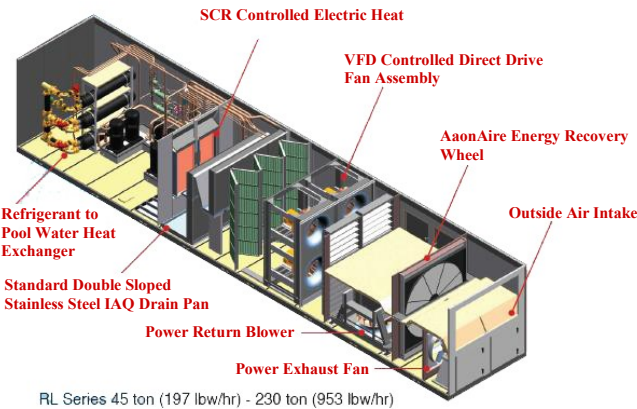

Welcome to SOLUTIONS, a monthly newsletter provided by Jacco & Associates. Jacco's focus on system knowledge provides you with the engineering support and product solutions for your applications.

April Feature:

Pool Units!!!

When you think of pool applications, you think of humidity control. When you think of humidity control, think Aaon! Aaon has a complete line of indoor, outdoor, packaged and split system Pool Dehumidification Units ranging in performance from 12 #/hr to 953 #/hr. The purpose of any pool unit is to control proper humidity and temperature levels under all space and ambient conditions. Now you can have the comfort of designing a system with Aaon's proven track record of high efficiency equipment to handle these difficult spaces with precision and dependability. Aaon utilizes its established designs with AaonAire energy recovery wheels and Copeland digital scroll compressors to achieve optimum performance from the viewpoint of both psychrometrics and economics. You can't go wrong with Aaon on your job.

Be sure to attend the Cleveland ASHRAE meeting on April 21st. Brian Kammers from Aaon will be discussing dehumidification concerns in today's buildings.

April Question & Answer:

Question: What is the number of hours that Aaon's standard paint has passed the salt spray test?
a.) 1,000 b.) 1,500 c.) 2,000 d.) 2,500

Prize: (4) Indians Tickets!

Respond by May 1st with the correct answer to be entered in the raffle for this month's prize!

Last Month's Question & Answer Winner!

Question: What is the maximum number of access reading devices in the Alerton Security System?

Answer: 16. Congratulation to Tim Krzewicki for winning (4) Indians Tickets!
