Focused On The Engineered Environment

July, 2008

Welcome to PPORTUNITY, a monthly newsletter provided by Jacco & Associates. Jacco's focus on engineering and design concepts will improve your HVAC system while significantly reducing design time, making you more productive for your clients.

July Feature:

M2 & M3 Modular Air Handlers

Did you know that Aaon has a full line of modular indoor and outdoor air handlers ranging from 1,000 to 51,500 cfm? These units have been designed and engineered to be rigid, tightly sealed and exceptionally quiet, while at the same time being easy to install and service. An extensive amount of features and options allow the units to be specified to meet your job requirements. The standard double wall, foam insulated cabinet with thermal breaks eliminates condensation and dampens sound while helping to provide less than 1% air leakage at +/- 8" w.g. of static pressure. Multiple direct drive fans arranged in a single wall create performance efficiencies, lower sound levels and system redundancy. All access doors are also designed to open against air pressure to create a tight seal.

M3 Series Unit with top return, top discharge, hot water coils, and chilled water coils.

Additional Features And Options Include:

- ◆ Symmetric Panels For Field Changes
- ◆ Blow-Through And Draw-Through
- ◆ Top, Bottom, Side & End Discharge
- ◆ Lockable Access Doors
- ◆ Stainless Steel Drain Pans
- ◆ Selectable Base Rail Heights
- ◆ DX Or Chilled Water Coils
- ◆ Hot Water, Steam, Electric Coils
- ◆ Energy Recovery Wheels
- ◆ Double-Pane Viewing Windows
- ◆ Factory Or Field Mounted Controls
- ◆ Interior And/Or Exterior Paint
- ◆ Polymer E-Coating
- ◆ Aluminum Tread Plate Flooring
- ◆ Pleated, Cartridge, Bag Or HEPA Filters
- ◆ Power Exhaust Fans
- ◆ Power Return fans
- ◆ Electric & Hot Water Preheat Coils
- ◆ UV Lights
- ◆ 120v GFCI Outlets
- ◆ Unit Shrink Wrapping

July Question & Answer:

Question: Aaon's standard paint surpasses the 2,500 hour salt spray test. How many hours has the polymer e-coating surpassed??

- a.) 4,000 b.) 6,000 c.) 8,000 d.) 10,000

Prize: Taylor Made R7 Draw Hybrid Rescue Driver!

Respond by August 1st with the correct answer to be entered in the raffle for this month's prize!

Last Month's Question & Answer Winner!

Question: Per the Montreal Protocol, production levels of R-22 will be limited to 0.5% of their 1989 capacity in what year?

Answer: 2020. Congratulation to Francine Chittum for winning a Skil cordless drill/driver!
